---

## Projects

---

### Leave Management System/ Website

DEC 2016

<https://github.com/abhi98khandelwal/FacultyLeaveManagement>

This project was awarded as 3rd best website in NIT, Raipur Techfest. Developed full stack, backend on *django* and database managed in *SQLite*. Being a Leave Manage site sent an email to respective authorities to approve the leaves.

### Jungle Safari Booking System/ Website

FEB 2017 - PRESENT

[https://github.com/abhi98khandelwal/Jungle\\_Safari](https://github.com/abhi98khandelwal/Jungle_Safari)

This site was developed as part of Technovate Fest. The backend, *django* and database managed in *SQLite* is managed by me. Pending to be granted as the **official site** by CG Govt.

### Money Management System/ Cross Platform App

FEB 2017 - PRESENT

Developing a Website(Django), Cross Platform App using *Kivy* in order to keep in track of my money and analyse. Here the app will keep record of money spent by user and display a graph where he is spending his money most via *Matplotlib*. Automatic mail will be sent to the person who the user has lent money. The project is still in development.

### Marksheet Generator / Command Line Program

JAN 2016

This was part of the Higher Secondary School project. The program displays the top-10, Marker Cup eligible students of the class. Database is stored in normal txt file.

---
